

## **COVID19: ATTENTION EVERYONE – THERE IS A CURE!!!**

By Howell Woltz -March 22, 20205399

Covid 19 cure

That's not good for those who wanted to seize even more power – which is probably why you haven't heard about it.

President Trump, even surrounded by carriers of Wuhan virus, is not affected. Why? He told us. Hydroxychloroquine. The chief knows the secret, but his 'advisors' have it on hold. Why?

FACT- Hydroxychloroquine has been used for malaria – which I contracted 35 years ago in South America – and has been proven effective against the Wuhan virus, which uses a similar mechanism to attack humans.

I have used this amazing drug off and on for decades to prevent relapses – which sometimes were worse than the first bout – but haven't had a one since learning the secret of Co-Enzyme Q-10 – a.k.a. hydroxychloroquine.

The U.S. did not allow it – I think because it was so effective and Big Pharma couldn't make fortunes off of it (because it already existed) – but it was available in the other countries I lived, including Poland.

The last thing I remember from the first malaria episode was passing out in my office in Port- au-Prince, Haiti in the mid-80s about a week after being in South America buying cotton – and waking up in a hospital in Winston-Salem, North Carolina several days later.

I was flown out strapped to a piece of plywood on freight carrier, Air Haiti, (I was told as I have no recollection of it), but – fortunately – I was one of their larger customers back then and they took good care of me.

Air Haiti only flew to Miami in the U.S. in those days, and I have no idea how I ended up in Baptist Hospital in Winston-Salem from there, or who I have to thank for that. But I did – and the first face I remember seeing when I awoke was a very harsh North Carolina Judge, Laurie Hutchins – who was then my wife.

She was not pleased – but back to the Wuhan virus.

Wuhan Virus is a Demon, as Xi Jinping says, and it shall not hide.

But Wuhan was designed by the CCP "to hide," and I'm sure 'Chairman for life' Xi knew it when this virulent manmade killer first leaked from his P-4 facility in Wuhan way back in November of last year.

It was programmed to replicate the infection mechanism of malaria, which is why it also responds similarly to malaria preventatives that include quinine.

Like malaria, quinine in various natural or fabricated forms disrupts Wuhan's ability to bond with the cell it wants to suck dry of protein (like a vampire), rendering it unable to replicate.

But any MSM pundit who makes fun of your President or mine saying that there is no cure, is lying.

I take Co Q-10 every day but if I pick up this virus – which I'm sure I have because I'm

out and about every day – it can't replicate in my body.

Maybe I'm not exactly immune – and I can definitely be a carrier – but when the virus cannot reproduce itself, it cannot destroy its host.

And for those already ill with the virus, combined with Azithromycin, it had a 100% success rate in a recent human study.

Here are the facts from a just-published human study in France:

While a gin and tonic may be preferable, a little hydrogen peroxide for sore throat and CoQ-10, are my go-to remedies and the French study just confirmed this is a winning formula to resist Wuhan virus.

Very sick people were cured – 100% of them – in just five days, using Hydrochlorquine (CoQ10) and Azithromycin.

This is big news, and 100% is a pretty strong number—not 'anecdotal' as the media claims.
