

Smart Meter Notice of Non-consent

Following is a lawful strategy for denying consent for your electric company to install a smart meter on your home or business. It can also be reworded to demand that one be removed if already in place.

This is not legal advice. It is a common sense approach to notifying your electric company of your awareness and preferences while piercing their corporate veil at the same time.

The letter and form should be sent by certified mail to the CEO and top officers of your electric company. The fact that the private for-profit corporation that represents your public utility commission has approved the installation of smart meters, while making no assurances as to their safety, puts this issue right back into the lap of the private electric corporations. The general population has no input regarding the appointment of public utility commissioners and no legal contract with any of them. These commissioners do not work for the people.

(The sample letter can be used as a template but needs to be personalized. The names of the electric company's officers and the public utility commissioners can generally be found on the internet.)

The notice is a collection of undisputable facts. It is important to note that **NONE** of the players in the smart meter rollout are making any claims regarding the safety of this biologically damaging device. Therefore **SAFETY IS THE ISSUE**. In our dysfunctional legal system, consent is presumed unless specifically denied. The notice is designed to meet that requirement . . . officially deny consent.

Save copy of the letter, the notice and the certified mail label. In our sample, there would be six letters, six notices and six certified mail labels.

NOTE: On the **SAMPLE SMART METER NOTICE** items in grey are to be personalized.
